HOW WE WORK ?

PERSONALIZED CONSULTATION TO START YOUR JOURNEY

Every successful design project begins with a conversation. That's why we offer a complimentary **20-Minute FREE phone consultation** for prospective clients. We believe that every home should reflect the personality of its inhabitant, so this initial chat sets the stage for understanding how we can best make your vision a reality.

STEP 1 : INITIAL CONSULTATION

We start with a visit to your home to discuss your goals, preferences, and budget. During this meeting, we work together to create a tailored design brief that serves as the foundation of your project.

Initial consultation – **\$ 250 + GST** for 90 minutes (Additional consultation hours and travel beyond 50 km are available for an extra fee.)

STEP 2 : DESIGN CONCEPT

After gathering all the necessary information, we present a design concept that outlines our vision, including color schemes, materials, and spatial arrangements. This step encourages feedback and ensures that the design resonates with your expectations.

STEP 3 : IMPLEMENTATION

Once you approve the design concept, we move into the implementation phase. Our team coordinates all aspects of the project, from sourcing materials to managing contractors, ensuring that everything comes together seamlessly.

STEP 4 : FINAL REVEAL

Finally, we unveil your transformed space, revealing the result of our collective vision and hard work. At this stage, we want you to feel a sense of joy and fulfillment, knowing that your space truly reflects who you are.

QUOTATION PROCESS

CLARITY & COMMUNICATION ARE PARAMOUNT

Understanding Our Quotation Process: What to Expect

FINALIZING THE SCOPE OF SERVICES

We begin by discussing your project in detail to understand your goals and finalize the scope of services. Once agreed, we provide an initial quotation covering the basics of the project.

DETAILED QUOTATIONS FOR ADDITIONS

As projects evolve, additional services, materials, or customizations may arise. These are not part of the initial quote. We provide separate, detailed quotations for any added elements to keep you informed.

WHAT'S NOT INCLUDED IN INITIAL QUOTES

Charges for making, installation, and related services are excluded from initial quotations. These are quoted separately after the scope is finalized to ensure complete clarity.

CLEAR COMMUNICATION IS KEY

We are committed to answering all your questions and providing updates throughout the process, so you can make informed decisions with confidence.

CUSTOMIZATION AT THE CORE

Your vision is unique, and we welcome custom requests. Early communication about specific needs ensures accurate quotes and a design that reflects your aspirations.
